📋 SUMMARY

My short term goal is to join as a TGT maths teacher and enhance my teaching skills. Passionate Frontend Developer skilled in building clean, responsive, and user-friendly web applications using **HTML, CSS, JavaScript, and React.js**. Trained at Masai through intensive project-based learning, building multiple real-world assignments. Strong understanding of UI design, state management, reusable components, and web performance. Quick learner with a focus on writing clean, maintainable code.

🎓 EDUCATION

Bachelor of Education 09/2024 – Present | Rohtak, Haryana
Saraswati Vidya Mandir College of Education, Meham

M.Sc(Maths) - Hons 5 Year Integrated Rohtak, Haryana
Department of Mathematics, MDU

🧠 TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js
- **Tools:** Git, GitHub, VS Code, LocalStorage
- **Web Development:** Responsive Design, LocalStorage

🌐 SOFT SKILLS

Communication, Teamwork, Adaptability

📁 PROJECTS

To-Do List Web Application ☑

Technologies: HTML5, CSS3, JavaScript(ES6), LocalStorage, Git, GitHub

- Built a responsive To-Do List application using HTML, CSS, and JavaScript.
- Implemented CRUD operations, task filtering, sorting, drag-and-drop reordering, and theme switching.
- Used localStorage for persistent task management and dynamic DOM updates.
- Added accessibility improvements, animations, and mobile-friendly responsive design.

Recipe Book Web App ☑

Technologies: HTML, CSS, JavaScript, responsive-design, localStorage

- Developed a responsive Recipe Book application with CRUD functionality, recipe search, image uploads, and comments system.
- Implemented browser history navigation, recipe modals, and local storage persistence without a backend.
- Followed professional GitHub workflow using Issues, Feature Branches, Pull Requests, and code reviews.

HealthyHub - Responsive Restaurant Website ☑

Technologies: HTML, CSS, JavaScript, Git, GitHub

- Built a responsive restaurant website with optimized layouts for mobile, tablet, and desktop devices.
- Added dynamic menu filtering, contact form validation, sticky navigation, and interactive UI components using JavaScript.
- Utilized GitHub Issues, feature branches, Pull Requests, and code reviews to simulate a professional development workflow and deployed the application online.

🏆 ACHIEVEMENTS

- Built 5+ frontend projects
